

Abstract of the Disclosure

1 The game begins with a player playing a conventional hand of
2 video poker. Whenever the player achieves one of the
3 predetermined types of starting hand combinations on the original
4 round of play of the hand of video poker, then the player is
5 awarded one or more additional hands of video poker on the next
6 round of play. The additional hands of video poker on the next
7 round of play are played according to the multiple hand poker
8 method described in U.S. Patent No. 5,823,873; or U.S. Patent No.
9 6,517,074; or U.S. Patent No. 6,050,568 or U.S. Patent No.
10 6,135,883. The award of one or more additional hands may continue
11 consecutively as long as the player continues to achieve one of
12 the predetermined types of winning hand combinations on the
13 previous round of play of video poker.
